SERVICES:
The laboratory’s Zoological Pathology Program, located in Chicago, is a full-service diagnostic pathology laboratory providing services to zoological and wildlife organizations and agencies worldwide.

• gross necropsy, histopathology, electron microscopy and cytology evaluation
• molecular diagnostics using PCR-based assays for selected bacterial, fungal, protozoal, and viral pathogens

To answer more specific questions please email zpplaboratory@vetmed.illinois.edu, or contact the lab directly at (217) 333-8373.
