SERVICES:
The clinical pathology laboratory provides routine blood analysis to aid referring veterinarian clientele and the veterinarians of the Veterinary Teaching Hospital in the medical treatment of their patients. Tests offered include complete blood cell count, chemistry analysis, urinalysis, coagulation profiles, crossmatch, endocrine testing, cytologies, and immunocytochemistry. Same-day consultation with veterinary clinical pathologists to discuss cytology and/or laboratory results, is also available. Our lab is staffed by ASCP certified medical technologists. They provide high quality service and are happy to answer questions.

To answer more specific questions please email vdclinpath@vetmed.illinois.edu, or contact the lab directly at (217) 333-5342.
EQUIPMENT:

**Diagnostic Stago STA. Compact Coagulation Analyzer**
High precision, automated coagulation testing

**Beckman Coulter AU 680**
Fully automated, highly efficient chemistry analyzer

**Sysmex XN 1000V hematology analyzer.** This analyzer utilizes state of the art technology to provide hematologic analysis for multiple species.
